

Title V Operating Permits for PSNH Facilities – Newington Station and Schiller Station

The Air Resources Division of the New Hampshire Department of Environmental Services has completed two proposed Title V Operating Permits for Public Service of New Hampshire. The permits are to be issued to Newington Station located at 165 Gosling Road, Newington, NH, and Schiller Station located at 400 Gosling Road, Portsmouth, NH. At this time, DES has submitted the permits to the Environmental Protection Agency, Region I as required by New Hampshire Code of Administrative Rules, Env-A 609.13 *Final Action*. EPA has 45 days, beginning December 28, 2006, to object to the issuance of the permits. If no objection is made, DES will issue the Permits, without change, to PSNH. If an objection is made, DES will follow the provisions outlined in Env-A 609.14 *Department Action Following EPA Objection*.

The proposed permits represent the final action by the DES Air Resources Division Director to grant these Title V Operating Permits pursuant to Env-A 622.08 *Decisions*. Any person aggrieved by the director's final action may appeal it in accordance with Env-A 622.09, *Appeals*. Appeals must be filed with the Air Resources Council by Monday, January 8, 2007, in accordance with the requirements specified in Chapter Env-AC 200, *Procedural Rules*.

You can read the proposed permits, engineering summaries, and letters to PSNH with attached comments and responses by following the links listed below. Please direct any questions to Elizabeth Nixon at (603) 271-0883 or by e-mail at enixon@des.state.nh.us.
